

Ben Snell ANIMATOR SHOWREEL SHOT BREAKDOWN

1.) Senior Student Short Film - This is my final graduation film. This was a solo project, therefore everything, including animation, layout, preproduction and post-production was completed by me, with the guidance of my instructor and mentor, David Tart. The final product, from initial concept to finished product was produced within a very tight deadline of three months. The character rigs were supplied by the 11secondclub.com community, however the rest of the modeling texturing, etc. was done by me.

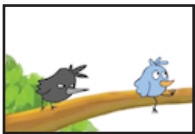

2.) 3D Character Animation - These are a few 3D animation exercises created during an introduction to 3D character animation course. All animation was created by me, however the character rigs were supplied by the instructor.

3.) Bean Sack 2D Animation - This animation was created for a introduction to animation course. Storyline and animation was completed by me.

4.) 2D Animation Walk/Run Cycles- These two cycles were completed for a 2D character movement course. The character designs, as well as animation was created by me.

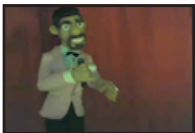

5.) 2D Animation Tests- These test were created for a group 2D animation short in which I was a lead animator. The animation, as well as character design, was completed by me using Flash.

6.) Figure Drawings- These are an example of my figure drawing abilities.

7.) Traditional Sculpture- The character designs, as well as sculpting was completed by me during a character development course.

8.) Stop Motion Lip Sync- A stop-motion animation. The character design, as well as puppet building was completed by me, in addition to all animation.
